

# BACHELOR OF SCIENCE IN PHARMACEUTICAL SCIENCES

Start your journey in the pharmaceutical sciences! Explore the core principles of medicinal chemistry, pharmaceutics, and pharmacology through comprehensive curriculum designed to equip you with the knowledge and skills needed to thrive in a career in a variety of career paths or pursue advanced degrees in pharmacy, medicine, dentistry, law and more.

## **CUSTOMIZE YOUR LEARNING EXPERIENCE**

Tailor your education by choosing from a variety of specializations such as drug formulation, regulatory affairs, or pharmaceutical marketing. The Bachelor of Science in Pharmaceutical Sciences program empowers you to align your education with your career goals, ensuring that you graduate with a unique skill set that sets you apart in the pharmaceutical job market.

## **BUILD A SOLID FOUNDATION FOR FURTHER EDUCATION**

The Bachelor of Science in Pharmaceutical Sciences programs accepts students directly from high school and allows for easy transfer, including into the Pharm.D. program during or after the pre-professional phase. Students learn to apply principles of chemistry, biology, biochemistry, and engineering to the design and development of new drugs and therapies, giving graduates a solid foundation for advanced degrees in medicine, dentistry, law and more or to embark on a career in the pharmaceutical sciences.

## **CONNECT WITH PASSIONATE FACULTY**

Immerse yourself in groundbreaking research initiatives led by renowned faculty members. The Bachelor of Science in Pharmaceutical Sciences program offers interactive laboratory experiences and collaborative projects, providing you with the chance to contribute to important research helping shape the future of pharmaceuticals.
